

Afiscooter M

Afiscooter-M is a powerful electric vehicle designed for service and maintenance personnel with its impressive carrying capacity and manoeuvring capabilities.

Afiscooter-M is a super strong vehicle with an advanced ergonomic design to handle loads of up to 300 kg / 661 lb.

Equipped with an extremely large loading surface, long travel range, and superb traction, the Afiscooter-M also allows for particularly easy steering and a smooth driving experience in a variety of environments including: corridors, service elevators, warehouses and narrow passages.

The independent suspension system and the orthopaedic Seat guarantee comfort throughout a full working day.

Afikim Electric Vehicles

has been developing and manufacturing advanced, electrically-powered mobility scooters since 1978!

Afiscooters' mobility scooters are designed with reliability and driver safety in mind first and foremost alongside beautiful, and thoughtful design.

Afikim Electric Vehicles' worldwide distribution network offers year-round local technical support and meets European ISO 9001-2000, EN 12184 certification, as well as US safety standards with FDA approval.
