

Jannali

Multi-function Bed

Enhanced comfort, convenience, safety, and support

ALIVIO

Soft fabric (Black) shown

The **Jannali multi-function bed** offers a range of benefits for those seeking enhanced comfort, convenience, safety, and support in their sleep or rest routines.

Jannali's customisable positioning features enable you to find your optimal sleeping or resting position – with five (5) different pre-set positions and two memory functions using the bluetooth phone App (iOS & Android compatible) to store your preferred bed positions.

An Autoregression section is built into the bed base to decrease pressure on the abdominal area and reduce shear forces on the occupant. The Jannali also features Trendelenburg, and reverse Trendelenburg positioning.

The electric height adjustment function provides independence and reduces reliance on carers for assistance. For occupants requiring assisted transfers it provides the carer with flexibility of height depending on the transfer equipment being used. For additional safety, a non-entrapment zone under the bed stops the bed frame from touching the floor. The standard under bed dimming LED light (motion detection version is optional) provides visibility at night.

The full-featured Jannali has various convenient features, including a standard wired USB handset (or downloadable phone App), battery backup, and USB ports for charging devices.

Optional: The Jannali also comes with an exciting range of options, including matching headboard/footboard, side/corner mattress retainers, armrest/armrest cover, short/long bedrails, side pocket, height adjustable bed stick, height adjustable assist rail and motion detection LED light.

Jannali comes in a range of modern, stylish colours and fabrics, including a soft-touch easy to clean fabric (Black) and soft leather-look PU option (Beige and Canley), with colour availability for optional matching companion beds.

Fabric/Colour Options

Black

Canley

Beige

Spare Parts: a range of spare parts are available. Please consult with your Jannali dealer.
